

# BACK-TO-SCHOOL YEARBOOK SHOPPING

It's back-to-school time. For many of you that means back-to-school shopping. Well, how about shopping for your yearbook room? Here's a list of what you might need in your yearbook classroom this year.

## YEARBOOK CLASS SHOPPING LIST

- Bulletin board materials to make the yearbook room look new (borders/letters/background paper or material)
- Carousels that can hold scissors, pens, pencils, staplers, etc. (sort of like what you would use in the kitchen to hold utensils)
- Birthday calendar
- CD binders and sleeves, or small crates to hold the CDs.
- Extra printer cartridges
- Microwave popcorn (if you have a microwave)
- Microwave (if you don't have one — they are great as they make the yearbook room more like home)
- Storage container(s) for your memory cards, card readers, etc.
- Camera cases for cameras that don't have them—protect your investment!
- At least one new digital camera—buy at least one a year to replace an outdated or slow camera.
- Food...start the year off with some food and have the kids restock the food supply. (Chocolate is a must!)
